Hi Stephanie,

I am in receipt of your email to George Molnar from Friday. Unfortunately, neither George nor I can make the meeting on Thursday due to other scheduling conflicts. We are both happy to meet your request at some mutually agreeable future date. We still are awaiting additional information regarding the proposal to better coordinate and work through our differences together as suggested most recently by John Prince.

Usually, we can rearrange our schedules so that either George or I can accommodate last minute opportunities for better coordination like this one-but this is not the case for this week and likely next. We apologize for not being able to join the group and look forward to the next opportunity to do so.

Best regards,

Mike

Hi George,

We are meeting with Chatham Township on October 21<sup>st</sup> and were hoping to start with a brief site tour. We are working to get access from the Miele Trust, but in the meantime were wondering if someone from FWS might be available to show us a means of access to the refuge portion of the site, from the refuge. At one point, Mike Horne (I believe) had offered to do this, so we are hoping to take you all up on that offer.

Thanks,  
Stephanie
